THE JOHN S. MOSBY HERITAGE AREA

A coalition of citizens and civic groups have joined together to have this region recognized as the John Singleton Mosby Heritage Area. "Heritage Areas", a fairly new idea, are formed by local residents to celebrate a region that has a distinctive character and sense of place. There already are five in Virginia and over one hundred throughout the United States.

The Mosby Heritage Area will be educational and promotional in purpose and will focus not only on the Civil War but on all the persons and places which form this region's unique heritage. We hope that all individual enthusiasts and local groups - schools, businesses, garden clubs, historians - will join in a mutually beneficial effort to increase knowledge and appreciation of our region's culture and history among our own citizens and throughout the United States.
